

## SCANDALICIOUS Scarf

**Needles & Hook:** Size 7 needle, Size H Hook

**Knit Scarf - Shorter, heavily ruffled version**  
**Length: about 36-40"**

1. Unfold the ribbon. Fold the ending piece over about 4 inches. The original cast on sts will go through both thicknesses.
2. Cast on 3 sts by sticking needle through the top edge of the netting from right to left.
3. Turn the needle.
4. Insert the needle in to the most left hand st, pull netting through to create a new st, do not drop original st off the needle. Insert needle into middle st, pull netting through to create a new st, do not drop original st off of the needle. Insert needle into the most right hand st, pull netting through to create a new st, do not drop original st off of the needle.
5. Now there are 3 sts on each needle. Let the original 3 sts drop off of the needle.
6. Turn needle and repeat steps 4 & 5.
7. Continue repeating steps 4 & 5 until most of skein is used. At the end, fold the last piece (about 4") over for the final set of sts so you will knit through both thicknesses. Without turning, bind off

just before the end - pulling the middle st over the left hand st, then the right most st over the remaining one. Use a small piece of yarn to anchor the last st in place so it will not unravel.

**Longer, less ruffled version:**  
**Length: about 55".**

Work as for the shorter version, casting on and working 2 sts instead of 3 sts.

Abbreviations: K = knit, st(s) – stitch(es), garter st = knit every row.

**Crochet Scarf**

**Length: About 55”.**

1. Unfold the ribbon. Fold the ending piece over about 4 inches. The first sts will go through both thicknesses.
2. Loop over crochet hook. Go out about 2” and loop over crochet hook again. Repeat for a 3<sup>rd</sup> loop on the hook. Pull the 3<sup>rd</sup> loop through the second loop, then the second loop through the 1<sup>st</sup> loop. Only 1 loop is on the hook now.
3. Go out about 2” and loop over crochet hook again. Repeat for a 3<sup>rd</sup> loop on the hook. Pull the 3<sup>rd</sup> loop through the second loop, then the second loop through the 1<sup>st</sup> loop.
4. Repeat step 3 until most of skein is used. At end, fold over last 4” or so and work through both thicknesses. When final loop is left on needle, Use a small piece of yarn to anchor the last loop in place so it will not unravel.
